SSFD

OPERATIONS

- Responded to 245 calls: Two Fires, 66 EMS, 22 Service, 127 Good Intent, 17 False Alarms
- EMS call volume continues at normal volume for this time of year.
- Units responded to reports of an alarm activation in the 7100 block of Peachtree Dunwoody Road. Upon arrival, crew heard an audible alarm sounding on a three-story, wood frame multi-residential structure. No fire or smoke was showing. Maintenance arrived and directed the crew to a basement apartment unit. The crew followed the sound of running water and located an activated sprinkler head in the kitchen. There was an odor of over-cooked food with no fire. The resident left a pot unattended, causing oil to overheat and ignite. No damage and no fire extension was reported.
- Units responded to reports of a structure fire in the 800 block of Edgewater Drive. The crew arrived on the scene to a two-story, single family dwelling with no signs of smoke or fire showing. The homeowner said her realtor came to the house that morning to turn all the lights on for a showing of the home. The homeowner came home a few hours later, noticing a light haze in the room and smoke coming from under the stove. The crew investigated the kitchen and found a light haze of smoke from under the stove. Personnel secured the breaker box and shut off the gas to the structure. The homeowner stated that there was a light fixture recently replaced directly under the stove in the basement, so fire personnel created an inspection hole in the basement ceiling. No heat signatures or fire was detected, only residual smoke. Firefighters inspected a light fixture on the back patio and found the source of the fire and charring on the studs. The crew removed siding and insulation and extinguished smoldering with a water can.
- Units responded to reports of a possible structure fire in the 200 block of Londonberry Drive. The crew found a two-story residence on a basement with a slight haze coming from the front door. Sandy Springs Police Department, already on scene, informed SSFD they

located a fire in the master closet, which they attempted to extinguish with two dry chemical extinguishers. The crew observed moderate smoke coming from the closet with flames a couple of feet high near the presumed source. Personnel extinguished fire with a water can and performed mechanical ventilation of the structure.
